A Wi-Fi interface module is included for connectivity to tablet flight apps. All Lynx models have an integrated ADS-B compliant WAAS/GPS receiver.

## Additional Options

### ATAS (ADS-B based Audio Traffic Alerting System)

ATAS provides audible traffic alerting at all altitudes. Fewer false alerts due to refined ADS-B data, surveys and alerts below 500 AGL. Certified to TSO-C195b.

ATAS Option (included with new purchase) ~~\$667~~ **FREE**

### Embedded Terrain Awareness Warning System (eTAWS) or TerrainVision

Choose between the Lynx Class B eTAWS or TerrainVision options. eTAWS provides visual and audio alerting, terrain and obstacles with a worldwide database. TerrainVision provides advisory only depicting surrounding terrain and obstacles.

eTAWS Option \$4,000  
TerrainVision Option \$895

### Active Traffic

The Active Traffic technology is actively interrogating transponder equipped aircraft. This is useful when flying outside of ADS-B coverage. Customer can use existing SkyWatch antenna.
